

The Studio 39 series is inspired by Pietra Serena, also known as Macigno stone, a grey sandstone used extensively throughout Renaissance Florence architecture and loved for its natural elegance and versatility. Emulating the ever-colouring and fine grain of Pietra Serena, Studio 39 boasts a mix of cool and warm grey colourways and is fully coordinated with various sizes and finishes. Comprised of durable colour body porcelain, Studio 39 will create exceptional results from commercial spaces to high-end contemporary homes.

### surface finish - structured tiles

Structured tiles are given a special look during the forming process because their surface is changed from a flat to a textured one. The texture of structured tiles ranges from protruding geometric shapes to rugged effects. Some structured tiles have a three dimensional effect, which gives them a higher slip resistance. Aesthetically, they look great under lights, bringing depth and contrast. Reimagining your living space with structured tiles because they offer a sense of depth and texture that walls don't. Structured tiles are ideal for wells because they make them more sculptural, appealing and dynamic.

### material - porcelain

Porcelain tiles go in sync with well-appointed furnishings of homes and offices because they offer unmatched variety of colours, shapes and sizes. A creative expression of your personality, they are a perfect choice for your home. Tiles are highly durable with a longer life span. These tiles are also freeze-proof, rendering them the safest choice for homes and offices. That's not all. They are ideal for outdoor use such as patios with high foot traffic and are the perfect solution for cold climates because of their frost-proof nature. Their strength and non-porous nature make them highly resistant to staining. You can lay them by using an adhesive, grout and silicone sealant.

### edge - rectified

Rectified tiles are mechanically trimmed during manufacturing, generally with a water diamond blade allowing for smaller grout joints. The smaller grout joints give a seamless look to the floor and some side and have square edges. They look very straight and square. These tiles are ideal when thin, clean and precise grout lines are required.

## product specifications

SKU	NT19-66-45FL
Series	STUDIO 39
Warranty	STANDARD (10 Yrs Tiles)
Look/Design	Limestone
Variation Rating	V2
Slip Rating	PEI 3
Pendulum Rating	P4
Size	300x600
Surface Finish	Structured Tiles
Colour	Londra
Material	Porcelain
Area	Floor
Edge	Rectified
Unit of Measure	M2
Length	600
Width	300
